

Take Cover Skin System™
Skin Cover Up Clinic
Durable Skin Coverage for Camouflage

The London Dermatology Centre® has teamed up with *Take Cover Skin System™*
Skin Cover Up Clinic to offer effective skin cover up solution services for
dermatological conditions, giving you an instant solution and self-confidence.

The London Dermatology Centre®

69 Wimpole Street London W1G 8AS T 020 7467 3720 M 07961 755336

What is the difference between regular makeup and specialist skin coverage for camouflage?

Regular and corrective makeup is used for beautifying, whilst skin cover up solutions are used to camouflage and visibly diminish the appearance of vitiligo, birthmarks, burns and scarring due to dermatological conditions such as acne, eczema and more.

Why Skin Cover Up Clinic at The London Dermatology Centre?

Dr Sunil Chopra, Consultant Dermatologist and founder of The London Dermatology Centre specialises in aesthetics, diagnosing and treating dermatological conditions. Gerri Facey, founder of Take Cover Skin System works privately with Dr Chopra's patients to address the growing need for skin cover up solutions for men, women and children.

The Skin Cover Up Clinic will provide a range of solutions for cover up that have been medically or FDA approved in US, UK and Europe.

What product or process is most suitable for me?

Take Cover Skin System has conducted extensive research to identify a range of water-resistant camouflage solutions that cover the skin effectively, using processes that can give long lasting durability for a stress-free result.

How can Take Cover Skin System help me to use and apply the products?

First of all, a Consultation is required in order to see how we can help, followed by a Personalised Colour Match with steps to show you how to apply the cover up for yourself.

Can I use it with regular makeup?

Some of our skin camouflage solutions can be used with other medically prescribed treatments, and you will be able to apply regular makeup over your skin cover up.

How often will I have to visit the Clinic?

You will only need to visit once, unless you order the Skin Cover Up Airbrushing System or require a specialist Application Service.

How long does the product stay on the face or body for?

Up to 12 -72 hours.

How long does the product last for?

Patients will use their selected product differently. Re-order 7-10 days before you are due to run out.

How long does the kit last for?

The kits contain robust compressor units that can last for up to 10 years if treated and maintained correctly.

How can I obtain the products?

Selected skin match products, Airbrush Skin Cover Up Solutions and Airbrushing System Kits can be ordered through Take Cover Skin System by calling 07961 755336 or email info@takecoverskinsystem.co.uk.

Personalised Skin Cover Up Consultation for Manual Self-application and/or Airbrush Skin Cover Up

“Hi Gerri, I just wanted to tell you how pleased I was when I put on your skin cover product, it gave me a great feeling. It stayed longer than I thought and it's the optimum solution for a quick and a painless cover for my scarring. Also, I liked your personal work. You were very professional and so sweet at the same time. I am looking forward to visiting you again for another session. Thanks and God bless you ”
